Al Jami' Library

Out of its belief in the power of art as a universal language, and instrumental in fostering communication, dialogue, and openness to others; Al Jami' Library serves as a window for researchers and those interested in exploring the most significant advancement of the Islamic culture in arts and sciences. The richness of the library's invaluable books and manuscripts helped create significant bridges of communication with other cultures. Such interest stems from the continuous support of H.H Sheikh Mansour bin Zayed Al Nahyan, UAE Vice President, Deputy Prime Minister, and Minister of the Presidential Court, who also generously provided approximately 3 thousand books and periodicals, written in 14 living languages. This gesture aims to document the Islamic civilization's sciences and arts while also diligently working to spread and revive them on the other hand.

Religious Programs

The Centre organizes various religious programs throughout the year that focus on different topics concerning all segments of society.
