A young boy with blonde hair, wearing a dark blue suit jacket over a white shirt, is standing and talking on a silver flip phone held to his ear with his right hand. He has a wide-eyed, surprised expression on his face. Numerous US dollar bills of various denominations (including \$1, \$5, \$10, \$20, \$50, and \$100) are scattered in the air around him, some falling and others floating. The background is a plain, light color.

## ABOUT **SUN**

The solar sign in astrology is one of the main indicators in the natal chart. We usually call it a zodiac sign. It is our ego, creative, uniqueness. The sun is the source of all life on Earth, the center of the solar system. This is our heart. The important summary: the love of vitality. Physiologically this is our heart. The stronger our Sun is manifested, the more it contributes to our confidence and leadership skills, gives vitality, temperament and the need for self-affirmation. If the Sun in the natal chart is very weakened, it will provide problems with mental health, give a strong ego, vision or heart problems are possible. To meet a partner, give a strong ego, vision or heart problems are possible. By working out the Sun, you need to work out relationship with dad. Sunny people are the most positive people, they are optimistic, as well as enthusiastic. By working through our solar sign, we will release the energy of warmth and an eternal source of inspiration for creativity and ensure us. Let's allow ourselves brighter as a person and plane brighter in society.
